PROFESSIONAL SUMMARY

A tech-enthusiast with 1.8 years of experience in handling customer interactions and resolving technical queries in high-volume support environments, maintaining a 91% customer satisfaction score. Experienced in troubleshooting basic system and network issues and providing effective solutions to users. Certified in RHCSA with practical knowledge of Linux system administration and foundational networking skills. Seeking opportunities in Technical Support, IT(linux)Roles, Customer Support.

WORK EXPERIENCE

Customer Delight Executive (Technical Support)

Jumbotail | 2022 – 2024 | 1.8 Years

- Resolved 100+ daily technical and operational issues via calls, chat, and CRM tools
- Achieved 91% customer satisfaction through effective troubleshooting and communication
- Diagnosed issues related to applications, order systems, and connectivity
- Handled incident management and escalations with root cause analysis
- Coordinated with internal tech teams to resolve system-level issues
- Maintained proper documentation and ticket updates

Career Development (2024 – Present)

Following my support role at Jumbotail, I intentionally invested in structured self-development to bridge the gap between customer support and technical IT roles:

- Earned the Red Hat Certified System Administrator (RHCSA) certification — gaining hands-on expertise in Linux administration, system services, SELinux, firewall management, LVM, and shell scripting.
- Completed Angela Yu's Full-Stack Web Development Bootcamp (Udemy) and Meta's Introduction to Frontend Development (Coursera) — building real projects in HTML5, CSS3, JavaScript, and React.
- Built and deployed multiple projects including a Linux server administration lab, a React recipe finder app (FlavorFind), and a personal portfolio — demonstrating practical, job-ready skills.
- Re-enrolled in Bachelor of Computer Applications (BCA) at Jain University Online (2026) to complete the degree aligned with IT career goals.

TECHNICAL SKILLS

Linux / System Administration (RHCSA)

- RHEL, User & Group Management
- systemd / systemctl, SELinux, firewalld
- Package Management (DNF, RPM)
- LVM, Swap, Cron Jobs
- Log Analysis (/var/log)

Networking Basics

- TCP/IP, IP Addressing
- DNS, DHCP
- Network troubleshooting (ping, curl, connectivity issues)

Technical Support Skills

- Incident Management & Ticket Handling
- Root Cause Analysis
- Customer Communication

Web Development

- HTML5, CSS3, JavaScript

Tools

- Linux CLI, Git, GitHub
- Freshworks CRM
- VS Code

PROJECTS

RHCSA Linux Server Administration Lab

- RHEL, Apache HTTPD, systemd, SELinux, firewallld, LVM, Shell Script, Cron Topics covered
 - Designed and deployed a full Linux server environment simulating real-world RHCSA enterprise infrastructure scenarios.
 - Installed and configured Apache HTTP Server (httpd); managed services using systemctl and validated web access with curl.
 - Applied SELinux security contexts using restorecon; configured firewall rules with firewall-cmd to permanently allow HTTP traffic.
 - Managed LVM volumes, swap space, and user/group access controls with file permission hardening.
 - Developed an automated Apache monitoring shell script — scheduled via cron to log service status every 2 minutes to /var/log/web_status.log.

Personal Portfolio Website

- Built responsive portfolio using HTML, CSS, JavaScript
- Implemented smooth scrolling and UI components
- Added resume download and project showcase
- Deployed on Netlify <https://arunq.netlify.app/>

CERTIFICATIONS

- Red Hat Certified System Administrator ([RHCSA](#))
- Web Development Bootcamp — Angela Yu ([Udemy](#))
- Introduction to Frontend Development — Meta ([Coursera](#))

EDUCATION

Bachelor of Computer Applications (BCA) (Pursuing)

Jain University (Online) | 2026 – Present

BCA (Incomplete)

Vijaya Composite College | 2018 – 2021

II PUC

Jyothy Kendriya Vidyalaya | 2018

ACHIEVEMENTS

- Maintained 91% customer satisfaction score in high-volume support role
- Received Certificate of Excellence at Jumbotail

KEY STRENGTHS

- Strong troubleshooting mindset
- Fast learner in Linux and IT systems
- Good communication and customer handling
