WORK EXPERIENCE

Customer Delight Executive (Technical Support) | Jumbotail 2022 – 2024 | 1.8 Years

- Resolved 100+ daily technical and operational support cases via inbound/outbound calls and Freshworks chat platform for customers and delivery partners.
- Achieved and consistently maintained 91% customer satisfaction score by delivering professional, empathetic, and solution-oriented support.
- Troubleshot delivery failures, order processing errors, and operational system issues, coordinating with logistics and internal tech teams for resolution.
- Took end-to-end ownership of escalated incidents, ensuring zero repeat escalations through structured root-cause investigation.
- Built strong documentation and communication habits managing high-volume, high-pressure support interactions daily.

PROJECTS

RHCSA Linux Server Administration Lab — RHEL, Apache HTTPD, systemd, SELinux, firewalld, LVM, Shell Script, Cron

- Designed and deployed a full Linux server environment simulating real-world RHCSA enterprise infrastructure scenarios.
- Installed and configured Apache HTTP Server (httpd); managed services using systemctl and validated web access with curl.
- Applied SELinux security contexts using restorecon; configured firewall rules with firewall-cmd to permanently allow HTTP traffic.
- Managed LVM volumes, swap space, and user/group access controls with file permission hardening.
- Developed an automated Apache monitoring shell script — scheduled via cron to log service status every 2 minutes to /var/log/web_status.log.

Personal Portfolio Website — HTML, CSS, JavaScript

Built a fully responsive single-page portfolio featuring sections for About, Projects, Skills, Resume, and Contact.

- Implemented card-style UI, smooth scroll navigation and resume view/download functionality.
- Deployed on [Netlify -]
